

Name: _____

Crafting a Research Question

1. Pick a topic.

2. Research your topic (you can't form a question without base knowledge. Write your research notes on notebook paper and staple it to this form.

3. What do you know? What do you want to know?

4. Write your question.

5. Evaluate your question.

- Is your research question clear?
- Is your research question focused?
- Is your research question answerable?
