

Writing Reflection

Think deeply about how to answer these questions and thoroughly answer them. You can create a Google Doc if you'd rather type it (then email it to me), or you can write it on notebook paper.

- How has this year gone for you?
 - What factors might have contributed to this?
- What would you do differently if you could go back in time?
- How important are academics to you? Why do you think you feel this way?
- What do you want from the remaining part of the school year?

- What can you do to achieve this?
- What would you like to do that you haven't had the chance to this year?
